

- > Footer copyrights > add hover effects to link (underline)
- > News arrow should be white and hover black
- > Bug: The watermark shield is not visible on the main container, please look at our .AI layout file.
- > The lightbox arrows should be grey and hover white
- > The lightbox close button should have hover effect (invert)
- > Bug: The lightbox page gallery does not display the image big, it stays the same size as the thumbnail
- > Print icon should have hover effect (white)
- > Sitemap link should have hover effect (underline)
- > Search icon should have hover effect (black)
- > Search wording "Recherche..." as well as the search input seems smaller than it should (same size as main content area)
- > The COMMUNE DE RUSSIN title in the header should be white
- > The top margin above the header should be 25px instead of 27px
- > Please put the "Le Mandement" in the option as we need to add a link to it, also add hover effect (underline)
- > The 3 shields should be <http://dropcanvas.com/w03u3> in this order Dardagny (link to <http://www.dardagny.ch/> ), Russin (link to homepage), Satigny (link to <http://satigny.ch/> )
- > Top+Bottom padding of the side menu should be 25px
- > The vertical line of the top menu should be 25px and aligned to the baseline of the menu entries (currently 27px)
- > Gallery album page, on hover thumbnail or name of gallery, invert the colors of caption div (box white, title+arrow grey)
- > There has been a mistake on our side (please accept our apologies) but all text or icons that are #BDCCD4 should be FFF (search icon, arrow icons, header title, form page text+icon, etc).
- > Newsletter arrow box add hover effects (invert colors) (arrow should be white not #BDCCD4)
- > Newsletter pdf icon should also be a link the pdf
- > The print view is very bad, it should be the same as the PDF as requested.
- > The page gallery custom field present in the default template should be available in all templates
- > The form calendar should be set in French
- > The form send button should be white, on hover invert the colors, and the text size same as the other fields.
- > Form drop down menu & Calendar entries should have hover effects (invert colors)
- > Please translate search result title "Search:" to "Résultats de la recherche de:"
- > When there are no results to the search add "(aucun résultat)" after the search query, example: "Résultats de la recherche de: Map (aucun résultat)"
- > Bug: when there are no search results the side menu appears with all pages from the website.
- > 404 pages should redirect to homepage
- > Sitemap, remove bullets but keep indentation. Remove the bold on the PLAN DU SITE link
- > On the PDF view, can you reduce 25% the size of the footer text+title, also remove the link of email/web so there is no blue
- > The newsletter functions is almost perfect. One thing, the email sent to the list doesn't attach the PDF.
- > Also, there will be several different sections with this newsletter, so we need to have different lists
- > Within the main content area, links should be underlined and hover effect should become white.
