Waste Disposal Calendar 2026

Garbage		Household waste may only be disposed of in the official taxed garbage bags which are subject to a fee. These taxed bags can be bought in all local supermarkets as well as the municipal administration office :	17 Liter-Sack CHF 10.00 / Role 35 Liter-Sack CHF 19.00 / Role 60 Liter-Sack CHF 32.00 / Role 110 Liter-Sack CHF 29.00 / Role	10 Säcke pro Role 10 Säcke pro Role 10 Säcke pro Role 5 Säcke pro Role
Tax stamps	Non-official garbage bags can be marked with a tax stamp corresponding to their size. These tax stamps are available at the municipal administration office .			
Basic fees	In addition to the taxed garbage bags and tax stamps, a basic fee is charged annually in accordance with waste regulations. The fees are billed to the property owner (landlord).			
Waste collection dates:	Waste collection is always on Mondays 7:00am. Following Easter and Pentecost holidays, collection takes place Wednesday April 8, 2026 and Wednesday May 27, 2026 respectively. The taxed garbage bags can be placed in the proper collection containers at any time. Incorrect or improperly placed garbage bags will not be collected.			
Disposal centers: Stalden Werkhof Wyden / Bühlwäldli Baumgarten				
Recyclables and special waste disposal				
What	Where	How? Remarks		
Plastics 	Marked container (Bring Plastic Back) by the community workshop.	In the proper collection bags. These bags can be obtained at the municipal administration office for the same price as the taxed garbage bags. The following plastics are to be used in these collection bags: plastic bags, plastic from magazines, six pack rings, plastic bottles and beverage cartons of milk, oil, vinegar, shampoo, cleaning supplies, detergents, food packaging, plastic garden containers, and yogurt cups.		
Paper and cardboard 	Paper and cardboard is collected twice a year by the school on April 29, 2026 and October 21, 2026	Paper and cardboard must be separated, and each tied in bundles with string. These bundles should not be too heavy and should be no larger than 30cm high. On collection day, bundles should be left out an ready at 7:30am.		
Glass bottles 	Glass container by the community workshop	Separate glass by color. Remove all other materials such als lids, caps, corks and any other metal or plastic pieces. Reminder! Porcelain, ceramics, terracotta, glass from windows, glass from car windshields, mirrors etc. do not belong in the containers! These should be taken to a disposal center.		
PET bottles 	Bring PET bottles back to supermarkets for recycling or leave them in the designated PET containers by the community workshop.	Air out, cap on top! Pressed bottles allow for more space.		
Aluminum 	Alu container by the community workshop	Belongs in the Alu collection container: beverage cans, aluminum foil, metal screw caps. Does not belong in the Alu collection container: food tubes, pet food trays, spray cans. These items can be disposed of at metal collection points.		

Tin cans		Tin can container by the community workshop	
Batteries		Return to points of sale. Device batteries can also be handed in at the municipal administration office.	Never dispose of in household garbage bags! Car batteries should be taken to a garage.
Garden waste		Garden waste such as tree or shrub cuttings, bush or lawn cuttings, foliage, withered flowers, and kitchen waste (without any plastic paper, cardboard, or metal materials). Collection dates 2026: April 1, April 29, May 20, June 10, July 1 July 22, August 5, August 19, September 2, September 16, September 30, October 21, November 4, November 11 Collection is taken from the street along the following route: 	Garden waste such as lawn or shrub cuttings, bush and tree cuttings, foliage, weeds, fallen fruit, withered flowers (without any decoration material). Bundles should be no longer than 1m and maximum 30kg.
