Plan Nr. 027.174-01

The figure is an aerial photograph of a residential and agricultural area, overlaid with a technical drawing of a proposed road layout and signalization. The drawing shows a main road running horizontally across the middle of the image, with two branches: "Turtig" to the north and "Basper" to the south. The "Turtig" branch is a short, straight road leading to a residential area. The "Basper" branch is a longer, curved road leading to a larger residential area. The main road has a yellow center line and red and white striped edges. The branches are marked with red and white striped lines. Various technical annotations are present, including a compass rose in the top left corner, a scale bar in the top right corner, and several text labels such as "Sanierungsbereich Bankett", "Arbeitsbereich b = 3.00 m", and "Absperung mit Leitbacken". The map also shows existing infrastructure, including buildings, fields, and a river.
